## strpbrk No arch-specific strpbrk implementations

Posted by Kyle McMartin - 2008/05/08 08:14

---

While cleaning up parisc\_ksyms.c earlier, I noticed that strpbrk wasn't being exported from lib/string.c. Investigating further, I noticed a changeset that removed its export and added it to \_ksyms.c on a few more architectures. The justification was that other arches do it. I think this is wrong, since no architecture currently defines \_\_HAVE\_ARCH\_STRPBRK, there's no reason for any of them to be exporting it themselves. Therefore, consolidate the export to lib/string.c. Signed-off-by: Kyle McMartin <k...@parisc-linux.org

I think this is wrong, since no architecture currently defines \_\_HAVE\_ARCH\_STRPBRK, there's no reason for any of them to be exporting it themselves. Therefore, consolidate the export to lib/string.c. I noticed this too the other day, and I totally agree. Thanks for taking care of this. - To unsubscribe from this list: send the line unsubscribe linux-kernel in the body of a message to majord...@vger.kernel.org More majordomo info at <http://vger.kernel.org/majordomo-info.html> Please read the FAQ at <http://www.tux.org/lkml/>
